

Moriom Akter Pouspo , (Batch – 10), CSE, Jagannath University is tremendously ill. She has been suffering from typhoid fever and Jaundice for a long time.

This day we remember her with our heavy heart as today she might be among us, sitting there and participate this contest.

“Praying that you get better soon and experience the joys of being healthy again.”

In this particular problem we going to wish Pouspo through our codes.

“Hello Pouspo, Hello From CSEJnu”

Your job is is to print this line (without quotes) exactly given above.

Input:

There will be only one input which is an integer value N ($0 < N \leq 10$).
